# ICT25 / Submission Process

**About the Submission Process**

- As projects undergo assessment by international reviewers, all proposals must be written in English.
- The length of the proposal is determined by character counts and page limits in case of uploads in the Funding Portal.
- Character counts include spaces.
- Please write precisely and address the required criteria, while also providing sufficient detail to allow an evaluation by international peers.
- The proposal will be reviewed by 3-4 external international reviewers very specific to the topic of your proposal. Please keep in mind that you are writing the proposal for both the expert reviewers and a comprehensive interdisciplinary jury

> Submission of full proposals -> External written reviews -> Applicant response -> Jury meeting to select projects for funding -> Funding Decision via WWTF Board of Directors (early October 2025).
