# General Features

**AUTO SAVE:** All entries are saved automatically. In case a “Save” button is not visible, please be assured that your data will have automatically been saved.

**AUTO VALIDATION:** The system constantly validates and saves data in background. If it appears that your entries have not been accepted, please refresh the website. This should resolve the problem and might help when encountering other issues with the system.

**RIGHTS of the PI and Co-PIs:** All core team members (i.e., coordinating PI and co-PIs) can contribute to and edit the proposal before its submission. However, only one person can edit the proposal in the Funding Portal at any time. **Only the coordinating PI is allowed to submit a proposal.**

A chapter with a red alert symbol indicates that it is incomplete. Within the marked chapter, click on the red symbol(s) beside individual sections to highlight the fields requiring attention.  A green checkmark symbol indicates that the information in the chapter is complete.

Please note that the symbols might not refresh immediately even if the information in the chapter is complete. Changing to another chapter and going back to the other will refresh the symbol.

*WWTF aims to expand the system’s features in due time to streamline the online application process. We ask for your patience if not all potential features are ready at this point in time.*
