Register and Login

Create User Account

1. Go to https://fundingportal.wwtf.at/
2. Go to “Register” in the top menu
3. Enter your registration data (*indicates mandatory fields)
4. You will receive an email to confirm registration

> If you are a PI, please register and complete your profile as early as possible because your profile information is used in the other parts of the proposals (e.g., your institution).

> Please note that the person who initially registers must not necessarily be the PI&C of the project. The PI&C and co-PIs can be invited to the proposal at a later time.

> Administrative staff (e.g., institutional grants office, project assistants) can also create a proposal and invite PIs. Only in this case can a proposal be edited by both PIs and administrative staff (i.e., administrative staff cannot be invited to an existing proposal). This allows research support and admin personnel to first check the requirements for submitting a proposal.

> If your institution does not show up in the "Primary Affiliation" field, a context menu will open directly under the "search affiliation" bar. Click on the menu, then you will be able to enter your affiliation directly in the previously greyed-out bar right next to the "search affiliation" bar. Once you complete this step, your affiliation will be added to the database.

Login with an Existing Account

Via WWTF Account

1. Go to https://fundingportal.wwtf.at/
2. Login with your credentials

Via ACONET Federation

In case that your institution is member of the ACONET Federation as a identity provider, you can login with your credentials of your institutions.

1. Go to https://fundingportal.wwtf.at/
2. Select ACONET
3. Select your institution in the drop down
4. Login in with your institutional credentials

> You can also login and get to your proposals / projects via ACONET if your email is already used for a WWTF account.

> Please note that logout may not work for all identity provider (aka, your institution). This is not in our sphere of influence. In particular, **if you logged in via a public computer, please close the browser to securely logout**.
